

Technical Data Sheet

Product: Lureking bed bug monitor

Code: CAT-NO33-260

Product Function: Monitoring

Description: Russell IPM's Lureking bed bug trap is a highly effective, premium monitor for bed bugs. It is pre-baited, easy to assemble and ready to use.

Longevity: 6 - 8 weeks once opened

Active Ingredient: Bed bug attractant

Packaging: Box of 100

Trap Application:

Separate the traps into two by folding the perforation lines and pulling apart. Peel off the protective paper from the sticky base. Form the trap shape by inserting slot A into slot B as the trap is pre-baited it is ready to use.

When to Use:

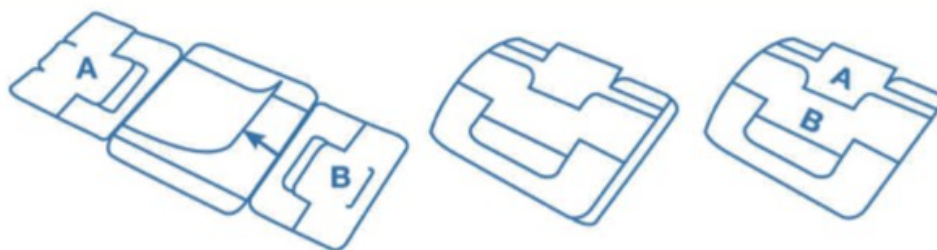

This trap can be used for monitoring purposes before the pest becomes a problem or used to combat pest populations.

Trap Density:

Place the trap where infestation is suspected, ensuring it is convenient to check regularly. Ideal places would be under/next to the bed, behind curtains or next to furniture. The traps can be secured to walls/skirting boards using the double sided tape.

Replacement:

Replace the trap every 6 - 8 weeks and/or once full with insects and dispose away from monitoring area.

Storage

Store in a cool, dry place out of direct sunlight.

Precautions

- Do not eat or drink while handling this product.
- Wear gloves when handling any pheromone lures.
