

Intensive Oxi-detergent

F 6200

Liquid, highly alkaline detergent with odour-free bleaching and starch dissolving power

AREA OF APPLICATION:

- For use in commercial warewashers.
- Suitable for dishes made of plastic, porcelain, stainless steel as well as cutlery and utensils.
- Not suitable for silver, aluminium (even anodised) and metal alloys.
- Removes lightly dried-on coffee and tea stains and other discolorations effectively.
- Removes dried-on food remnants effectively.

For perfect wash results, we recommend using the specially developed Winterhalter system, which includes the corresponding ware-washer, chemistry and water treatment.

DOSAGE:

With automatic dosing equipment, depending on the degree of soiling and the water quality. In the UC V02 and PT V02, the basic setting can be easily adjusted via the chemical database for coordinated dosing. This detergent belongs to the detergent group DT09.

To get a perfect wash result, the detergent dosing should be set by the Winterhalter customer service.

Water quality	Dosage in ml/l	°dH	[µS/cm]	ppm CaCO ₃
Osmosis	2.0 – 2.3	0 – 3	0 – 90	0 – 53
Soft	2.4 – 2.8	4 – 8	91 – 240	54 – 142
Medium	2.9 – 3.5	9 – 14	241 – 420	143 – 249
Hard	3.6 – 5.0	> 14	> 420	> 249

PRODUCT ADVANTAGES:

- Highly concentrated formulation
- Excellent cleaning performance
- Excellent starch solubility
- Very good grease solubility
- Very good protein removal
- Good bleaching action

INGREDIENTS:

Bleaching agent on chlorine basis, phosphonates, polycarboxylates

Product contains no phosphates.

Winterhalter products are totally free of NTA and EDTA.

Intensive Oxi-detergent

F 6200

DELIVERY SIZES:

12 kg	container
25 kg	container
190 l	barrel

TECHNICAL DATA:

Colour	yellow
Odour	product-specific
pH value	14
Shelf life	12 months
Storage conditions	cool, dark, frost-free, up to 25 °C
Density	1.33 g/cm ³
Titration factor	0.41

DISPOSAL OF EMPTY PACKAGING:

- Completely emptied packaging is recyclable and can be disposed of by the end user in accordance with local regulations.
- Information on disposal of product residues can be found in the corresponding material safety data sheet.

IMPORTANT:

- Product is not intended for the general public. For commercial use only!
- Colour variations of the product are caused by raw materials and storage, but do not affect quality.
- Storage and transport of the product are only permitted when being in an upright position and in the original packaging. Do not expose to direct sunlight and protect from freezing.
- Never mix with other products and do not transfer the product into other containers, such as bottles, which are not intended for this purpose!
- Follow the operating instructions of the respective Winterhalter warewasher!
- Containers, pipes and dosing equipment should be rinsed with fresh water before changing products.
- A funnel (60 005 163) is available for the safe and exact filling of the integrated storage tanks in Winterhalter UC-models. To avoid confusion, the detergent may only be filled in tanks with a white flap colour.

- The detergent can be used in conjunction with all customary rinse aids for commercial warewashers and is suitable for use in the food sector.
- To support the self-cleaning programme of the warewasher, the Winterhalter A 15 MC cleaning tab is recommended.
- To ensure the durability and reliability of the warewasher, all filters should be cleaned at end of operation. To avoid corrosion, leave the machine slightly open so the interior can dry.
- For cleaning and maintaining the stainless steel coverings of the warewasher it is recommended to use Winterhalter A 162 stainless steel polish.
- The washing parameters should be kept in accordance with the DIN guidelines (DIN 10510 to 10512 and DIN 10522). Information of Working Party of Commercial Dishwashing should be kept in mind. In context refer to: www.akggs.de
- Product's material safety data sheet, technical data sheet and operating instructions are available on www.winterhalter.com
